TESTIMONIALS 2024

E*CLUSIVE COLLECTION

“Being a certified B Corp business, the successful installation of RAW EV charging points at our properties has been another step forward on our journey making adaptations and improvements across the collection. With the increase in EVs on the road, the chargers offer guests the opportunity of worry-free charging of their cars to get on the go with ease when they leave. Giving them time to rest, recharge and take a breath from the everyday in beautiful surroundings whilst with us...”

Danny Pecorelli, Managing Director, Exclusive Collection

BILLESLEY MANOR
HOTEL & SPA

“We’re always excited to partner with brands like RAW Charging that help us improve the experience of our guests when they visit our hotel. As more and more people are using electric vehicles, giving customers the option of reliable and affordable onsite charging during their visit is important to us. Initially the process appeared complex but RAW made the installation simple and we’re seeing great early usage signs.”

Stephen Fearnley, General Manager, Billesley Manor Park of Bespoke Hotels

“RAW Charging’s dedication to innovation, customer satisfaction, and sustainability has set a benchmark for other leisure destinations. Their professional approach and commitment to delivering high-quality solutions have made a significant impact on our operations ensuring our guests have a magical experience. We look forward to continuing our partnership with RAW Charging and expanding our EV charging infrastructure in the future.”

Stuart Jauncy, Head of Renewable Energy, Merlin Entertainments.

National
Trust

“When we were looking for a supplier, there were some things that really stood out for us (with RAW). One was to understand that it was all about the people. Not about things, or assets, or energy necessarily. What really stood out, was RAW understood that this was about the experience that people are going to have when they arrive and the stories that we can tell on the back of it and that really struck a chord with us”.

Patrick Begg, Outdoors and Natural Resources Director, National Trust

East
Midlands
Designer Outlet

McArthur
Glen
Designer Outlets

“At McArthurGlen, we strive to minimise our impact on the environment, and are firmly committed to reducing our carbon emissions to net-zero across all 26 of our centres in ten countries. As part of this commitment, we aim to provide our guests with as many options for sustainable transport when they travel to us as possible.

To this end, we have collaborated with RAW Charging to enhance our Electric Vehicle charging points, empowering our customers to stay conscious of their carbon impact while they visit us.”

Jo Daley, McArthurGlen Group

McArthur
Glen
Designer Outlets

“As part of our on-going modernisation works, we are delighted to announce the installation of RAW Charging electric vehicle facilities at the Centre. The addition of this charging infrastructure sees East Midlands Designer Outlet become one of the largest EV charging hubs in the area, and the largest charging hub in the McArthurGlen’s UK portfolio.”

Paul Sutton
Centre Manager, East Midlands Designer Outlet

JUNCTION27
RETAIL PARK

“One of our key goals for the UK Commercial Property REIT portfolio is to ensure that our assets provide the best possible service to customers and other stakeholders, and that they help create a sustainable future in line with our net zero ambitions. Working with RAW to install much needed charging facilities at these two well located and popular retail parks helps us achieve both those goals and we will continue to work with best in class EV operators, such as RAW Charging, to deliver on our ambitions.”

Will Fulton, Fund Manager, abrdn
